ICM-3000

ICM-3000
Card Mailer
and Delivery System

With the ICM-3000 series, which has been developed and manufactured by Innovative Card Systems, cards can be fixed on to individual carriers simply

Highest Flexibility. Thanks to the modular design of the ICS Inserter series, the ICM-3000 offers a never seen flexibility and functionality in the mid-range card mailing segment. Its costs/performance ratio makes it to one of the most valuable systems world-wide.

High Productivity. This powerful and productive system processes up to 3.100 cards per hour. An additional labeling module can cover individual PIN/PUK areas with a scratch-off security label. **Folding Technologies.** Combined with one of the most common card folders, the ICM-3000 provides a variety of different folding technologies (C-fold, Z-Fold and half-fold) and additional inserts in different formats.

High Material Capacities. Higher capacities in terms of additional card feeders, 15.000 adhesive labels per roll and envelope conveyors allowing a minimum of operator assistance during full production. Exchangeable card input magazines guarantee a continuous ongoing process.
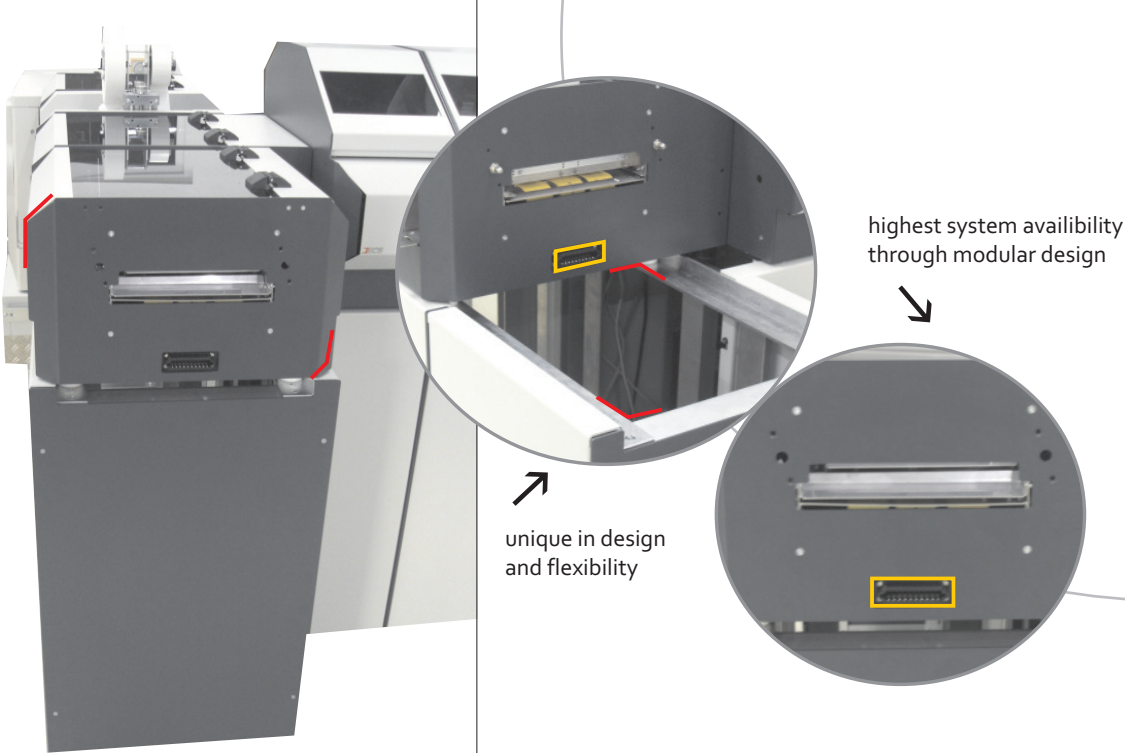

Availability. The robust engineering and design stands for 24/7 availability and low maintenance costs.

Price/Performance. Looking at price, performance, functionality and flexibility, the ICM-3000 offers an outstanding return of investment and capital spending protection.

Keys features & facts

The ICM 3000 offers a cost-efficient solution for professional users as well as an entry level for starters.

▶ Stand-Alone & Inline Functionality
▶ Production Performance up to 3.100cph
▶ Card input with changeable magazine
▶ Magnetic stripe reading (LoCo&HiCo)
▶ Contact smart card reading
▶ Contactless smart card reading
▶ Top and bottom 1D barcode reading
▶ 2D barcode and Datamatrix reading
▶ Camera reading available
▶ 6 cards per carrier possible
▶ fully modular design
▶ processing of plastic & paper cards
▶ Microsoft©Word Templates
▶ Carrier Collation Module
▶ Document feeder available
▶ compact design and footprint
▶ 24/7 operations
▶ Scratch-off function for PIN-Mailer
▶ transparent,clear card processing
▶ flexible card positioning
▶ No card process,
▶ f.e. mailing of account statements
▶ New range of professional high-speed laser printers
▶ Ultra-Sonic verification module for Card/Carrier check

highest system availibility
through modular design

unique in design
and flexibility

Technical Specifications

Basic Configuration:

·Card Input module for 500 ISO cards
·Card Reading Module
  Magnetic Stripe Reading LoCo and HiCo
·Multiple Card Buffer
·Carrier Input and Alignment station
·Labeling station
·Carrier Output station
·Starting performance from 1800cph – 3000 cph
·A4 or US-Letter, 80-120gr.

Folding Options:

·Z-fold
·C-fold
·Half-fold

Enveloping Options:

·DL size
·C5 size
.C4 size

Additional insert modules:

·several Insert feeders
·envelope insert feeders
·Barcode Selectable Inserts
·other folding and inserting options on request
·different insert feeders including booklets
·more folding and inserting options on request

Available Options:

·contactless smart card reading
·contact smart card reading
·1D barcode reading
·2D / Datamatrix barcode reading
·Camera reading
·PIN/PUK Labeling Station
·Ultra-Sonic station
·additional paper buffers
